THE STORY

ULTIMATE QUALITY CUSTOM WATER SPORTS BOAT

David Telling founded Australian FlightCraft in 1968. This world approved and highly coveted range of boats was subsequently sold to Malibu Boats in 1989. The ZR6 is a compilation of over 50 years experience in hull design, manufacturing and ingenuity evolved through direct participation in the water sports industry.

The ZR6 was designed to fulfil a void within the V-Drive wakeboard market by combining good looks, speed and performance with the revolutionary new Hydro Thrust Design (patent pending), and GO Crossover Surf Tabs. This progressive technology allows a WakeCraft owner the luxury of creating a variable wake for all facets of water sports without spray or a rooster tail.

To further the tech advancement of WakeCraft David successfully licensed the PureVert™ Ballast System from inventor Mike Murphy – known as Quick Fill™ at WakeCraft this technology now gives Wakecraft the best ballast system in the industry, filling and emptying the large under floor ballast with 2,050 lbs in under 1 minute - /// and 4000 Lbs Ballast on the ZR8 24 ft +

Features

ZR6

WAKECRAFT IS PROUD TO INTRODUCE THE 2018 WAKECRAFT ZR6

With its revolutionary hydro thrust design (patent pending), the WakeCraft ZR6 takes the competitive crossover boat to a whole new level. And the NEW Crossover Surf Tabs w/ Switch from Side to Side in seconds.

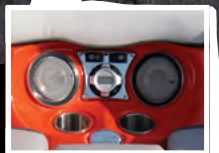

The ZR6 delivers beautifully shaped symmetrical wakes with clean peaks - sure to please the wakeboarders in your group. This boat is a pleasure to drive, with exceptional visibility through our one piece windshield combined with the smooth performance of the saltwater ready 6.2L 370 HP Mercury motor (JD Power Awarded). With the new Quick Fill™ Ballast System adding 2,050 lbs of ballast all under the floor. And when it comes to a party - this boat does not stop. With a standard 1400 watts of power integrated into 10 strategically placed speakers, complimented by a booming 10" subwoofer in enclosed ported box, the ZR6 will make your down-time as much fun as your sessions behind the boat.

With heated seats, a capacity for 12 in the comfort of a padded open bow and in the wrap-around seating area, the WakeCraft ZR6 is remarkably spacious for a 21-foot boat. The ZR6 is for those who enjoy a variety of recreational water sports, right up to hardcore wakeboarders.

When it comes to the construction of our hand-laminated boats, we do it right - one layer at a time. Our craftsman then hand finish every inch of the surface to achieve the perfect end product and quality you expect. WakeCraft has made a commitment to design the best, build the best, and to deliver the best crossover boat on the market today.

Power

ULTIMATE POWER ZR6

The MarinePower, a 6.2 Liter (374 ci) engine, boosting 540 horsepower. The distributor less ignition with platinum tip spark plugs stretches maintenance intervals into years. Is super quiet, incredibly smooth, and provides neck-snapping performance. LS3 Induction System Improvements increase airflow efficiencies and the displacement increases to meet performance enhancements.

ULTIMATE VALUE 6.2L TOW SPORT 320

The 6.2L 320 HP is the flagship engine in the Mercury line and the best for overall value in performance and durability.

All Mercury inboards features an unsurpassed factory-World Wide Warranty protection plan as well as all of the premium features that make it uniquely Mercury and MerCruiser.

CATANIUM™ CLEAN EMISSION SYSTEM

- Exclusive, patent pending catalyst technology
- Uses precious metals to reduce emissions and dangerous carbon monoxide
